2024 AUVSI ENGAGEMENT GUIDE & MEDIA KIT
Your resource for market intelligence and access to the uncrewed systems and mobile robotic industry.
As the world’s largest nonprofit organization dedicated to the advancement of uncrewed systems and robotics, AUVSI is committed to ensuring that new autonomous technologies are implemented in safe and equitable ways — so that autonomy works for everyone.

WHY AUVSI?

Our community is driving a world where uncrewed and automated systems seamlessly integrate into society and business, improving lives and optimizing operations.

As an association, we represent the largest global community of professionals and end users working together to realize that vision. We actively track 20+ vertical markets and empower those buyers to explore the available technologies and services to discover the best solution for their specific use case. Our team works with you to ensure you are reaching the right people and getting the right insights to achieve your goals — with custom content, industry data, advertisements, sponsorships, and more.
MEMBERSHIP & ADVOCACY

AUVSI membership provides opportunities and resources to get connected, informed and involved. Our members comprise a unified voice advocating for uncrewed systems on a local, state, and federal level. We advance growth and innovation with input from leaders from every sector.

Advocacy Committees and Working Groups
AUVSI advocacy experts are committed to removing roadblocks to your work, establishing public support for autonomous technology, and promoting smart and safe policies. We collaborate to set federal legislative and regulatory priorities based on member feedback we receive through our special committees.

- Air Advocacy Committee
- Ground Advocacy Committee
- Trusted Cyber Working Group
- Maritime Advocacy Committee
- DE&I Advisory Group
- Defense Advocacy Committee
- Strategic Communications Committee

Members include:

Contact your account manager to become an AUVSI Member and gain access to member benefits today.
MARKET INTELLIGENCE

AUVSI’s research team offers a wide range of services and capabilities, from access to analysts to deep-dive research and consulting. These services are available to give you best-in-class access to the most useful uncrewed and autonomous systems data and information available to inform your decision-making processes.

Uncrewed Systems Insights

The AUVSI Research Team launched the Uncrewed Systems Insights, a journal publication to bring the industry an overview of the latest trends and developments across sectors. This triannual report is free to download.

Bespoke Research & Consulting Services

Our bespoke research offering is made possible by an in-house team of analysts covering uncrewed and autonomous research and is supported through industry partnerships and robust data collection that began in 2010. Our Research Team can provide custom consulting on uncrewed systems and robotics systems platforms, in all 3 domains and federal defense spending and future capabilities required by the Department of Defense (DoD). Let us help you make data driven decisions, provide insights into growth and policy objectives and equip you with market intelligence.

Bespoke Research & Consulting Services are offered on an individual basis, starting with a consultation with our in-house research team. To get started, contact your account manager to schedule a custom consultation.
In addition to tracking Federal Business Opportunities, which has been designed as a single point of entry for vendors and companies seeking to find posted business opportunities from all departments and agencies in the United States government, the AUVSI Research team tracks federal defense spending to identify the biggest opportunities for government contracts.

The data will highlight what programs are being funded, review historical allocations, project future funding, and discover new initiatives to plan your R&D and sales strategies.

This research will also inform industry stakeholders of current congressional and Department of Defense priorities, how the threat landscape is evolving in military operations, and where investments are being made to counter these threats. The data collected by AUVSI is provided in an interface which enables users the ability to conduct granular investigations relative to their specific areas of interest. The interface can be sorted and filtered by the defense department or agency that is requesting funding as well as the domains and technologies that are supported. Detailed information for each initiative is also included which specifies plans for current and future research, development, testing, evaluation, and procurement of uncrewed vehicles and associated technologies.

**Executive Summary** — Free

**Written Report** — Free for AUVSI Organizational members

**Tableau Interactive Workbook**
- **AUVSI Organizational Members** — $1,650
- **Nonmembers** — $2,750

**Raw Data Set** — Contact us for a custom quote
Uncrewed Systems & Robotics Database (USRD) is the most comprehensive global database of uncrewed and autonomous technology. Explore more than 200 parameters on more than 8,000 vehicle models to conduct research, gather competitive intelligence, or complete due diligence.

**ACCESS TO THE USRD**

Individual Subscription is ideal for internal research. Enterprise & University Licenses suggested for in-depth raw data manipulation and/or to integrate into products.

- **Individual Subscription** — $2,750
- **AUVSI Associate Members (includes 10 user licenses)** — $2,750
- **AUVSI Startup Members** — $2,750
- **Enterprise Licenses** — Custom pricing available
- **University Licenses** — Custom pricing available

Learn More
AUVSI Trusted™ was created as an educational and preemptive measure.

- Raise cybersecurity awareness and knowledge and strengthen the security profile of our industry
- Ensure future UAS regulation is not thwarted (e.g., flights over people)
- Prevent draconian regulation
- Address challenge created by NDAA regulations

AUVSI Trusted is an enterprise certification program.

- Built on a suite of existing voluntary industry standards, regulations, and best practices
- Addresses risks specific to uncrewed and autonomous systems and components
- Crosses all operational domains: air, ground, and maritime

Pilot Training and Drone Operations

AUVSI Trusted Operator™ is a new initiative to certify the operations, technologies, and organizations essential to uncrewed and autonomous innovation. It includes certifications and benchmarks for organizations and individuals.

Become a Trusted Operator™ Training Provider

Trusted Operators represent the most skilled remote pilots in the industry. The Trusted Operator program depends on a nationwide network of Training Providers who assess new applicants, deliver training, and award certification. As a Training Provider, you’ll position your organization as a resource for both talented pilots and high-growth employers—and unlock new revenue streams.

Contact trusted-operator@auvsi.org to learn more about the accreditation process.
Why Green UAS

In partnership with its members and other key industry stakeholders, AUVSI launched the Green UAS certification to provide streamlined vetting of commercial and non-defense drone technologies to support end-users confidence when procuring systems and to bolster the drone and component manufacturing base for secure drone systems.

Get Involved with Green UAS

Green UAS assesses and verifies that commercial drones meet the highest levels of cybersecurity and NDAA supply chain requirements through a security controls assessment and vulnerability and penetration testing. The Green UAS cleared list of drones will meet updated levels of security requirements as the DIU’s Blue UAS 2.0 program.

Request certification for your system and see the Green UAS In Process/Cleared List including the following organizations:

*These companies (represented in full color) now have platforms that are Green UAS Certified.
THOUGHT LEADERSHIP

As a trusted resource for the uncrewed industry, AUVSI provides new ideas to advance the development and safe usage of innovative technologies.

AUVSI Webinar Sponsorship

The AUVSI community relies on us to identify thought leaders that will share the latest tech developments and industry trends. Sponsor a webinar and AUVSI will work with you to identify a relevant topic and highlight you as the expert for your sponsored topic. See who our webinars reach. All webinars will be hosted on Aville, our online learning platform.

Top 3 reasons to sponsor an AUVSI approved custom webinar:

• You’ll receive a list of registrants complete with demographics and contact information
• The webinar will be hosted in AVILLE, AUVSI’s online learning platform and library, which means your webinar will be promoted and viewed throughout the year
• AUVSI handles the logistics and partners with you to promote the webinar to our community

Webinar Sponsorship

• AUVSI Organizational Members — $5,650
• Nonmembers — $6,650

Space is limited — contact your account manager to secure your preferred date.
Develop an eBrief Spotlight

AUVSI’s weekly eBrief reaches more than 45,000+ professionals and end users. Highlight a new technology, initiative, leader or showcase your workplace culture through a curated spotlight article written and distributed by AUVSI in our eBrief, on our website and on social media; complete with a hyperlink of your choosing.

- AUVSI to write and publish the article in an issue of the Weekly and Daily eBrief
- Ad on AUVSI.org to promote the article for the entire month
- Call out on AUVSI’s social media channels

Spotlight (only one available per week) — $8,000

Submit an eBrief News Story

Create buzz around a product, partnership, event or another newsworthy announcement with a sponsored news story in our weekly eBrief. Provide two promotional pictures, a headline, copy and a hyperlink URL of your choice. We take care of the publication and promotion.

- AUVSI to publish your News Story in 2 issues of the Weekly eBrief during contracted month(s)

News Story (only one available per week) — $6,000

Our Weekly eBrief is read by C-Suite and Business Development professionals and the Daily eBrief readership is R&D and Engineering professionals. See who our eBrief reaches.

Become a Podcast Partner

AUVSI partners with reputable and established podcasts that want to reach a wider audience of business leaders, engineers, researchers, and end users. Expand your distribution to more than 45,000 people and share your expertise with the whole industry.

Contact Chelise Jeppson at cjeppson@auvsi.org to learn more.
EVENTS

AUVSI hosts the industry’s most important events. We offer a combination of thought leadership, brand awareness, lead generation, and networking opportunities.

XPONENTIAL

XPONENTIAL is a yearly gathering of global leaders and end users across all sectors in the uncrewed systems and robotics industry. XPONENTIAL 2025 will take place in Houston, TX from May 19 – 22, 2025. Attend, sponsor, or exhibit at XPONENTIAL to reach the widest possible audience. Explore opportunities.

AUVSI Defense

AUVSI Defense is a yearlong, multi-day event series designed for military officials, federal security personnel, and industry leaders working at the forefront of uncrewed technology. These events are where the defense community set the course for innovation and integration to support critical missions.

The first two installments took place in February and April 2024. The third and final installment will occur from October 23 – 24, 2024 with a focus on Contested Logistics, Counter UxS, Cyber and CJADC2.

FAA Drone/AAM Symposium

Featuring a robust FAA presence and an agenda focused on real-world issues, this event will take a place July 30 – August 1, 2024 and will provide you with access to cutting-edge insights from industry leaders shaping the sector while connecting with like-minded individuals working towards safety and emerging technologies for our shared skies.

AUVSI Industry Insight Summits

A series of 2-day in-person summits that will tackle pressing industry topics and equip attendees with actionable insights and strategies. Each summit will include expert panels and keynote presentations, workshops and case studies, and a variety of networking opportunities with industry peers and solution providers. The first event is focused on Uncrewed Systems Security, taking place in Alexandria, VA from September 17 – 18, 2024.
AN AUVSI COMMUNITY

AUVSI continues to invest in online tools and resources to be used by government and industry professionals, researchers, academics and students around the globe. Aville is a free virtual community of several thousand users created to enable engagement, networking, research, career development and education. Aville is a catalyst for building the future of autonomy—Aville features a directory of industry products and services, courses and webinars, job postings, sponsor and advertising opportunities, networking, community discussions, and other collaboration opportunities.

List Your Company, Product, or Role

Aville is the industry directory for all things automated and uncrewed. If you’re a member of AUVSI or exhibited at XPONENTIAL, you may already have a basic profile. Click to log in above and update your profile and product listing.

Didn’t see your company listed on Aville? Request to be added (free).
Have an announcement?
Get the message out to our targeted audience by simulcasting your event in Aville to increase your reach to a relevant market.

Advertise on Aville

Ensure your brand is top of mind as Aville’s thousands of users look for new ideas and solutions. Place a rotating banner on the homepage, a course listing page, and library listing page. Consider maximizing success by bundling a webinar or course sponsorship with AVILLE advertising.

**Homepage Banner Ad** — $1,100

Sponsor a Course

Aville includes virtual and live video courses targeting specific markets, such as public safety and first responders, defense, inspections and other remote operations, composites and advanced manufacturing. Sponsor a pre-developed course or collaborate with our team to develop a custom course available on the platform for a year.

**Existing Courses**
- **AUVSI Organizational Members** — $5,250
- **Nonmembers** — $6,250

**Custom Courses** — $7,000 – $10,000
**DIGITAL ADVERTISING**

AUVSI owns a variety of digital properties that get significant global traffic, from our main website to our daily and weekly eBriefs.

**Advertise on AUVSI.org**

Our website features industry news, business intelligence, updates on pressing regulatory issues, and so much more. Reach more than 350,000 unique visitors around the globe with more than 43,000 sessions per month.

- **Homepage Square Ad** — $1,200 per month
- **Homepage Rectangle Ad** — $2,000 per month
- **Homepage Middle Banner** — $1,200 per month

*Interior Page Rectangle Ad - Included with purchase of any homepage ad

**Website Retargeting**

AUVSI has partnered with North America’s largest B2B publisher, Multiview, to offer exclusive website retargeting advertising opportunities on AUVSI.org. Use our technology to reach visitors on their favorite sites.

**To start your retargeting campaign, contact a Multiview representative at salesinquiries@multiview.com or call +1 (972) 402.7070.**

- ~120,000 Impressions — $4,950

Delivered by AUVSI Partner: **MULTIVIEW**

A STAGWELL COMPANY
AUVSI

ebrief

Advertise in the Daily eBrief

The AUVSI team summarizes the most impactful stories and latest discoveries that cut across markets and domains for members. Place a banner ad to gain visibility to AUVSI members.

Banner Ad (only two available per month) — $2,000 per month

Advertise in the Weekly eBrief

Our Weekly eBrief is sent every Tuesday to our full opt-in readership of 45,000+ people, with timely and relevant news on technology and policy topics. Place ads to reach the whole industry over the course of a month.

Banner Ad — $2,300 per month

“Presented By” Logo Placement — $1,500 per month
EMAIL MARKETING

We know what it takes to reach the industry’s foremost leaders. We partnered with Outcome Media to build a high-value email list you can use to share your latest products, ideas, and announcements.

Rent the Email List

Choose from audiences in air, ground, and maritime sectors, and segment by geography to target the right audience for your marketing, sales, and research efforts.
